PAYROLLS R US

...it's what we do

Mission Statement:

To provide our clients, small to medium sized market companies, the best service they have ever experienced along with dependable products and technologies at affordable prices. We build relationships based on personal service, professional integrity and accountability.

PAYROLLS R US

...it's what we do

About Us:

PAYROLLS R US has been processing payroll for over 25 years. We currently process payrolls throughout the Milwaukee to Chicago corridor. Our personalized approach in our customer service model has been a key factor to our success along with utilizing dependable technology to make payroll fast, easy, safe and affordable for our clients.

About Us:

Over the years, we have learned our most valuable business tool is the trust of our clients. With any payroll vendor, you are entrusting them with the responsibility of safeguarding your company's payroll. You have to rely on them to be there for you every time, on time and through every payroll. This is what PAYROLLS R US is all about.

How We Can Help:

Using dependable technologies, we will provide you with a secure, totally flexible solution for payroll processing that can be completely automated.

We offer electronic time sheets or can develop a full interface with your timekeeping system or ours and then can electronically merge the data into our payroll system to facilitate payroll production and payment distributions.

Our payroll time clock is the simplest clock you could ever own. Your employees punch in and out on the clock with their cards, over the internet or biometrically. Once per day, your clock dials into our secure server and transmits the day's activity to us. Your time and attendance information is instantly available on our secure Web site.

"Beside the best service, flexible reporting methods and other products all at affordable rates, why else would I use Payrolls R Us?"

With our "Go Green" paperless model, you send us the payroll, you receive your reports and direct deposit vouchers via our secure web portal.

PAYROLLS R US

Go Green (continued):

As another option, the eStubs can be emailed directly to the individual employees and your accountant can also have access to your payroll reports. Since the payroll needs to be 100% direct deposit, your un-bankable employees can use our payroll debit cards. Not only is our "Go Green" sound for the environment without using up more trees and fuel, there's no shipping fees for you or delivery issues (IT'S PAYROLL).

PAYROLLS R US

...it's what we do

“What’s dramatically changed in the payroll service bureau industry and how does this impact you and your company?”

Originally, you reported your hours and salaries directly to your payroll service and they did all of the work such as employee maintenance, the inputting of the hours and salaries each payroll, and you talked to someone who knew who you were. You were truly outsourcing the payroll!

“What’s dramatically changed in the payroll service bureau industry and how does this impact you and your company?”

Today, you have a software or an Internet hosted application where you do all of the work such as all of the employee maintenance, input all of hours and salaries, etc. It’s like renting software and having someone else just print, send tax and direct deposits and that’s about it. Are you getting what your paying for? What’s happened to the service from a payroll service? Why are you or other employees doing the work for the payroll service?

PAYROLLS R US
